Concepts and Capstone  
Project**

**Microsoft SC-900 Exam  
Preparation and Practice**

Jul 18, 2024

**Fadi Abdelrahim**

has successfully completed the online, non-credit Professional  
Certificate

# Microsoft Cybersecurity Analyst

Learners will prepare for a new career in the high-demand field of cybersecurity with professional-level training from Microsoft — an industry-recognized leader. Through a mix of videos, assessments, and hands-on activities, you'll learn cybersecurity concepts and how they apply to a business environment, discuss threat mitigation strategies from an enterprise perspective, apply effective cybersecurity policy measures within an Azure environment, and practice on tools like MS defender, Azure Active Directory & more. For your final project, you'll create a cybersecurity proposal detailing the creation and protection of a business network and infrastructure. When you finish, you'll have tangible examples to talk about in job interviews and be prepared to take the Microsoft SC-900 Exam.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
